Jared needed to invite CEQ to the Rosemont mine visit. Each federal agency paid a share...EPA was allocated airfare. You will recall Dave Woods' email on how this should have been handled by CEQ.

Am I supposed to approve this travel? It doesn't appear to be foreign travel. If it's invitational, the division should approve.

Tom McCullough

You will get or see another approval request for an amended TA. I did not anticipate that he would have check-in any luggage. His voucher included baggage fees. In order to get reimbursed, I have to add the baggage fee expense on his TA. I only had airfare.
